

The Quieting Woodland Garden

A Woodland Flower Colouring Companion

Step into stillness.

About this Companion

This downloadable companion has been created for readers who purchased the printed edition of *The Quieting Woodland Garden*.

It presents each woodland flower design from the book in a coloured format, offering a gentle visual reference before you begin colouring your physical copy.

You may wish to use it for inspiration, for colour ideas, or simply to enjoy the illustrations as a quiet woodland flower collection in its own right.

The printed book remains the main colouring experience. This companion is intended as an additional reference guide for readers of *The Quieting Woodland Garden*.

Step into stillness.

The Quieting Woodland Garden is a collection of 50 carefully illustrated woodland flower designs created for calm, focus and quiet enjoyment.

Each page in the printed book is single-sided to reduce bleed-through and offers a balanced mix of simple and intricate woodland compositions.

Take your time. Let the woodland guide you.
